

I am writing because of the NEED for KLOVE - it is just what it advertises..positive and encouraging; I can drive in my car and my two sons no longer fight or yell; and we make it to our destination more safe, happier, and with a smile on our faces. I listen to it every morning as I drive to work to supervise/lead 60+ employees to new levels of performance; and appreciation and respect for themselves....I believe in KLOVE and the effects it has had on my life.....I look forward to those drives to work....

I know my days would be different if K-LOVE were to be displaced by an LPFM broadcaster and could no longer be heard. Our community needs K-Love and its fellowship and worship and truly "positive and encouraging" words everyday! Where else are you constantly, continuously reminded that you count, you matter, and God loves you no matter what.....Please consider the negative effect it will have on so many lives if klove's broadcasting is changed.

Thank you.

Cindy
